

Board Performance Evaluation 'Changing the Dynamics'

Our innovative approach to board evaluation recognises that boardroom performance is primarily driven by who you have around the table and the way they work together.

Our approach covers the “mechanics” of Board Evaluation (and is compliant with the UK Corporate Governance Code) but uses a focus on diversity and inclusion to analyse the “dynamics” in the Board Room. It enables directors to talk about behaviours in a business-like way and see how small but significant changes can create better discussions and decisions.

The positive feedback we have received from our first FTSE 100 evaluation leads us to believe that what we offer is a unique combination; companies not only receive the assurance that comes from a typical board evaluation, but also an understanding of how to create a truly inclusive boardroom which makes the most of its' diversity.

In our multi-disciplinary team we bring together boardroom experience and company secretarial knowledge with deep understanding of what makes for high performing top teams and individual leaders.

If you would be interested in discussing Board Evaluation further, either for a current or future need, we would be delighted to meet with you and show you how our innovative approach brings you genuine added value, enabling you to:

- Work to the spirit of the UK Corporate Governance Code as well as ensure formal compliance.
- Make the best use of the skills and experience around the boardroom table.
- Get the best from your new cadre of women and other diverse talent at the board table.
- Create an environment that brings the best out of in-coming presenters.
- Develop a culture of open thinking and constructive challenge in the boardroom.
- Be much clearer on how Non-Executive Directors can best add real value.
- Understand what the Executive Team need to do to prepare for highly effective board meetings.
- Have a practical set of recommendations actively led by both the Chairman and the Chief Executive.
